

Chun-Hsiang Chan

ASSISTANT PROFESSOR | TRANSDISCIPLINARY DATA SCIENTIST · PHD DOUBLE MS BSS

No. 162, Heping E. Rd., Taipei 106, Taiwan (Republic of China)

☎ (+886) 2-7749-1669 | ✉ chchan@ntnu.edu.tw | 🏠 toodou.github.io | 📱 toodou | 💻 CHUN-HSIANG CHAN | 📧 Chun-Hsiang Chan

"I always aim to overcome my limitations."

Education

National Taiwan University (NTU)

Taipei, Taiwan

PH.D. IN GEOGRAPHY

Sep. 2015 - Jul. 2021

- **GPA:** 4.12/4.3 (76)
- Applied spatiotemporal data analysis to unveil the global airline alliance market with 50+ million of flight schedule data.
- Leveraged worldwide flight schedule data with complex network analysis to characterize the aviation market structure of global airline alliance.

Shih Chien University (USC)

Taipei, Taiwan

M.S., DEPARTMENT OF FOOD SCIENCE, NUTRITION, AND NUTRACEUTICAL BIOTECHNOLOGY

Sep. 2018 - 2020

- **GPA:** 4.0/4.0 (30)
- Revealed key physicochemical parameters of semi-gelatinized high amylose maize starch and quantified for the mechanism of slowly digestible and resistant starch during sonication by machine learning.

National Taiwan University (NTU)

Taipei, Taiwan

M.S., DEPARTMENT OF GEOGRAPHY

Jan. 2013 - 2015

- **GPA:** 3.75/4.3 (31)
- Identified seismic precursors with massive electromagnetic processing (2.7 millions) and frequency domain analysis to spatiotemporally predict the epicenter (24%) and occurrence time (68%) of seismic events one week before from 2013 to 2014 (magnitude >4).

National Taipei University of Education (NTUE)

Taipei, Taiwan

B.SOC.SCI., DEPARTMENT OF SOCIAL AND REGIONAL DEVELOPMENT

Sep. 2008 - 2012

- **GPA:** 3.79/4.3 (174)
- Determined debris-flow critical rainfall line for disaster prevention through ML techniques (family competition genetic algorithm, k-means clustering, and support vector machine) with 5-years of rainfall data and 21 geological parameters.

Work Experience

Department of Geography, National Taiwan Normal University

Taipei, Taiwan

ASSISTANT PROFESSOR

2023 - Present

- Teaching subjects: GeoAI, Machine Learning, Python Programming, Studies in Medical Geography, Urban Geographic Information System, Social Network Analysis, Web Crawler Practice, and Geographic Information System.
- Developed an algorithm for 3D vehicle trajectory calibration via a 3D acceleration data.
- Utilized agent-based modeling to simulate urban traffic flow under natural disaster.
- Elaborated the impact of natural hazards and COVID-19 pandemic on the large-scale population flow changes.
- Collaborated with Meta to characterize the mental health changes after COVID-19 pandemic and spatiotemporal population flow changes of 2023 Turkey earthquake.

Master Program in Intelligent Computing and Big Data, Chung Yuan Christian University

Taoyuan, Taiwan

ASSISTANT PROFESSOR

2022 - 2023

- Teaching subjects: Probability and Statistics, Big Data Fundamentals and Application, Introduction to Natural Science and Artificial Intelligence, Capstone Project, and Intro. to EECS Profession.
- Leveraged graph neural network to characterize and refine the transportation structure in the urban area.
- Combined complex network analysis to characterize the spatiotemporal network structure of global heatwave events from 100+ years of data.

Taiwan Cybersecurity Foundry Company

Taipei, Taiwan

AI CONSULTANT

2022 - 2023

- Developed and deployed multiple machine learning models to automatically extract highly suspicious network security events from real-time massive flow alert data (531 millions), with an accuracy rate of 99% for each source.
- Combined with multiple time series models and federated learning to automatically detect abnormal network traffic (200 GB) for enterprise security management and meet privacy protection standards.

Far Eastern Memorial Hospital

Taipei, Taiwan

COLLABORATOR

2022 - Present

- Leveraged machine learning to identify chest compression locations (left ventricle or aortic vessel) from timely A-line waveforms to improve the quality and efficiency of CPR.

Institute of Sociology, Academia Sinica

Taipei, Taiwan

DATA SCIENTIST

2019 - 2023

- Utilized complex analysis techniques to investigate the social network formulation through quantitative and qualitative approaches.
- Conducted spatiotemporal statistical analyses (SaTScan & LISA) to reveal the preferred locations of multi-religious landscapes with 400-year cultivation data in Taipei city.
- Applied Louvain community detection and ML techniques (PCA, clustering, and hierarchical clustering) to demystify the association between pilgrimage network and religious development history.

School of Journalism and Communication, The Chinese University of Hong Kong

Hong Kong, China

DATA SCIENTIST / A JOINT BUSINESS PLANNING ON SOCIAL MEDIA MARKETING

2019 - 2023

- Collected fine-dining brand's Facebook engagement data to demystify the pandemic impact on social media behavior (2019 to 2021).
- Applied ML techniques and time-series analysis to predict the reservation trend.

Department of Radiology, School of Medicine, Taipei Medical University

Taipei, Taiwan

COLLABORATOR | POSTDOCTORAL RESEARCH / DEPARTMENT OF RADIOLOGY, TAIPEI MUNICIPAL WANFANG HOSPITAL, TAIPEI

2022 - Present | 2021 - 2022

MEDICAL UNIVERSITY

- Characterized the prognosis of anabolic treatment (Romosozumab) through dual energy X-ray absorptiometry (DXA), quantitative computed tomography (QCT), and trabecular microarchitecture analysis.
- Evaluated the 3D trabecular microstructure parameters to reveal the relationship between areal bone mineral density (BMD) from DXA and volumetric BMD from QCT.
- Investigated the vertebral fracture assessment problems with a 2D plain-film radiograph and different 3D CT grading methods (conventional, consensus, and global search).
- Developed a 100% accuracy and rapid automated BMD and total body composition report generator to improve efficiency for the report production.

Department of Geography, NTU

Taipei, Taiwan

RESEARCH ASSISTANT & TEACHER ASSISTANT / GEOSPATIAL COMPUTATIONAL SCIENCE LABORATORY

2019 - 2021

- Timely estimated the global exposure risk mobile app for direct and transfer air passengers to meet WHO healthcare goals and traveler needs in the COVID-19 pandemic.
- Demystified the role of transfer activities in cross-province transmission after Wuhan city lockdown by web crawling 1+ million railway schedule data during the COVID-19 pandemic.
- Utilized survival analysis and community detection for H1N1 global disease transmission with 85+ million global flight schedules.

Department of Geography, NTU

Taipei, Taiwan

RESEARCH ASSISTANT & TEACHER ASSISTANT / REMOTE SENSING AND SPATIAL KNOWLEDGE LABORATORY

2013 - 2021

- Designed an automated low-frequency electromagnetic signal processing and pattern recognition system.
- Applied ML techniques in seismic precursor analysis and automated vertical stratum structure recognition.

CyberSecurity Technology Institute, Institute for Information Industry (III)

Taipei, Taiwan

DATA SCIENTIST ENGINEER / ANALYTICAL INTELLIGENCE SECTION, ARTIFICIAL INTELLIGENT RESEARCH AND DEVELOPMENT

2017 - 2019

CENTER

- Identified the spatiotemporal causal relationship of air pollution between stationary emission sources and ambient air quality.
- Developed a real-time and open-source cybersecurity monitoring system with Elasticsearch, Logstash, and Kibana (ELK), which analyzed the suspicious packets.
- Implemented a generative adversarial network (GAN) model to detect malicious behaviors with a 250 GB malware dataset.

Department of Social and Regional Development, NTUE

Taipei, Taiwan

RESEARCH ASSISTANT & TEACHER ASSISTANT / DEBRIS-FLOW DISASTER PREVENTION LABORATORY

2013 - 2016

- Leveraged social media advertising to promote crowd-sourcing debris-flow disaster platform and mobile app.
- Adopted several spatiotemporal hydrological analyses to timely characterize debris-flow disasters to inform experts and public users on a website and mobile app.

National Science and Technology Center for Disaster Reduction (NCDR)

Taipei, Taiwan

RESEARCH INTERN / SLOPELAND DIVISION

2011 - 2011

- Conducted spatial statistical methods to reveal the hidden debris flow and landslide areas from massive high-resolution remote-sensing images.

Department of Chemistry, NTU

Taipei, Taiwan

PROJECT STUDENT / JTC ORGANOMETALLIC RESEARCH LABORATORY

2010 - 2012

- Synthesized and characterized - from ligands to complexes [(o-C₅H₄N)C(CH₃)(R₁)NR₂]AlMe₂
- Characterized organometallic precursors by NMR techniques and X-Ray crystallography showing distorted tetrahedral structures.
- Catalyzed ring-opening polymerization of ϵ -caprolactone with the activities and the *M_n* values.
- Displayed the electronic and steric properties of distinct ligand influences toward molecular weight and PDI values.

Thesis

2021	Ph.D. Thesis , Characterizing Major Airline Alliances: A Network Analysis. <i>Department of Geography, National Taiwan University</i>	Taipei, Taiwan
2020	Master Thesis , Effects of Ultrasonic Treatment on Physical Properties and <i>in vitro</i> Digestibility of High Amylose Maize Starch. <i>Department of Food Science, Nutrition, and Nutraceutical Biotechnology, Shih Chien University</i>	Taipei, Taiwan
2015	Master Thesis , Applying Ultra Low Frequency Remote Sensing Techniques in the Earthquake Precursor Analysis —Using Taiwan as an Example. <i>Department of Geography, National Taiwan University</i>	Taipei, Taiwan
2011	Bachelor Thesis , Ring-Opening Polymerization of ϵ -caprolactone Using Organoaluminum Complexes Bearing Amido-pyridine Bidentate Ligand. <i>Department of Chemistry, National Taiwan University</i>	Taipei, Taiwan
2011	Bachelor Thesis , Establishing Debris-Flow Cluster and Modified Critical Rainfall Line. <i>Department of Social and Regional Development, National Taipei University of Education</i>	Taipei, Taiwan

Course Teaching

NATIONAL TAIWAN NORMAL UNIVERSITY | GEOAI

2027	GeoAI , Department of Geography (Spr'27)	College of L.A.
2027	Python Programming , Department of Geography (Spr'27)	College of L.A.
2026	Machine Learning , Department of Geography (Fall'26)	College of L.A.
2026	Application Computer Programming to Geography , Department of Geography (Spr'26)	College of L.A.
2023	Studies in Medical Geography , Department of Geography (Fall'23, Spr'27)	College of L.A.
2023	Urban Geographic Information System , Department of Geography (Fall'23, Fall'25, Fall'26)	College of L.A.
2023	Seminar on Geographical Studies , Department of Geography (Fall'23)	College of L.A.
2024	Web Crawler Practice , Department of Geography (Spr'24, Spr'25)	College of L.A.
2024	Social Network Analysis , Department of Geography (Spr'24, Spr'26)	College of L.A.
2024	Geographic Information System , Department of Geography (Fall'24, Fall'25, Fall'26)	College of L.A.

CHUNG YUAN CHRISTIAN UNIVERSITY | COMPUTER SCIENCE

2022	Probability & Statistics 1 , Undergraduate Program in Applied Artificial Intelligence (Fall'22)	College of EE & IS
2022	Introduction to Natural Science and Artificial Intelligence , Department of Electronic Engineering (Fall'22)	College of EE & IS
2022	Big Data Fundamentals and Application , Master Program in Intelligent Computing and Big Data (Fall'22)	College of EE & IS
2022	Intro. to EECS Profession , BS in Electrical Engineering and Information Science (Fall'22)	College of EE & IS
2022	Capstone Project II , Undergraduate Program in Applied Artificial Intelligence (Fall'22)	College of EE & IS
2023	Probability & Statistics 2 , Undergraduate Program in Applied Artificial Intelligence (Spr'23)	College of EE & IS
2023	Programming for Artificial Intelligence , Undergraduate Program in Applied Artificial Intelligence (Spr'23)	College of EE & IS
2023	Complex Network Analysis , Master Program in Intelligent Computing and Big Data (Spr'23)	College of EE & IS
2023	Capstone Project I , Undergraduate Program in Applied Artificial Intelligence (Spr'23)	College of EE & IS

TAMKANG UNIVERSITY | COMPUTER SCIENCE

2021	Advanced C Programming and It's Applications , Department of Artificial Intelligence (Fall'21)	College of Eng.
------	---	-----------------

Research Projects

NATIONAL SCIENCE AND TECHNOLOGY COUNCIL

2025.08-2026.07	Principal Investigator , An Integrated Urban Mobility Simulation Model for 3D Vehicle Trajectories Using RAG and Few-Shot Learning GraphGAN: A Hierarchical Spatiotemporal Topological Analysis of Urban Vibrancy Vulnerability Under Different Weather Conditions (NSTC 114-2410-H-003-157-)	NSTC
2025.07-2027.06	Co-Principal Investigator , Taiwan's "Sporting Sense"× Digital Exhibition: Mapping the Spatiotemporal Genealogy of Localized Modern Sports (NSTC 114-2627-H-017-001-MY2)	NSTC
2023.11-2025.10	Principal Investigator , Spatiotemporal Dynamic Urban Mobility Network Modeling: A Graph Neural Network Approach with Integrating Multimodal Public Transportation and Heterogeneous Built Environment Factors (NSTC 112-2410-H-003 -182 -MY2)	NSTC
2019.08-2020.07	Principal Investigator , Market Identification and Realization of Global Airline Alliance Airport Network (MOST 108-2420-H-002 -025 -DR)	MOST

INDUSTRY COLLABORATION PROJECTS AND OTHERS

2026.03-2026.11	Principal Investigator , Develop an AI Enhanced Data for Landslide Early Warning Model (2/2) (NCDR-S-115028)	NCDR
2026.02-2027.01	Co-Principal Investigator , Climate Change and Health Adaptation Cardiovascular Disease Project —Research on an Integrated Prediction Model for Myocardial Infarction	Prudential PLC
2026.01-2026.12	Co-Principal Investigator , Incorporating Population Mobility Data and Agent-based Modeling to Evaluate the Impacts of Leader-follower Strategies on Emergency Medical Accessibility to National Taiwan University Hospital Yunlin Branch in Disaster Scenarios	NTUH
2025.10-2025.12	Principal Investigator , Spatiotemporal Forecasting and Characterization for Fall Armyworm through Weather Factors	NCDR
2025.11-2026.10	Co-Principal Investigator , Integration and Application of Sustainable Development and Metaverse AI Teaching Environments	UAAT-KOOU International Integrated Collaboration Project
2025.09-2026.08	Co-Principal Investigator , Poverty Map of Taiwan: Distribution and Spatial Clustering of Low-income and Middle-low-income Households	Money Trainer Financial Study Center
2025.03-2025.11	Principal Investigator , Developing an Intelligent Data Enhanced Landslide Early Warning Model	NCDR
2025.01-2025.12	Co-Principal Investigator , Continuous Arterial Pressure Trajectory Data and Monitoring Frequency Using Arterial Catheters in Major Trauma Patients	NTUH
2024.06-2024.11	Principal Investigator , Spatiotemporal Complex Disaster Risk Stratification Project for Urban Road Network	NCDR
2024.01-2024.06	Principal Investigator , 2024 The Promotion Projects of Pipeline Irrigation Facilities - (Item 6) Improvement of Pipeline Precision Irrigation Demonstration Sites - Sub-item (D) Planning and Management of Demonstration Sites to Participate in the National Sustainable Development Award)	AERC
2024.01-2025.12	Co-Principal Investigator , The Effect of Socioeconomic Status and People Flow on Bystander Cardiopulmonary Resuscitation Rate	NTUH
2024.01-2024.12	Principal Investigator , Spatiotemporal Mobility Patterns on Car Flow and Population Flow	NTNU
2023.10-2023.11	Principal Investigator , Combine Open-source Encrypted Network Traffic Analysis Module For Network Attack Detection	NCDR
2023.01-2023.05	Principal Investigator , CAP Data Mining and Data Service Module Extension for Disaster Prevention	Datarget Global Inc.

Certifications, Skills & Interests

LANGUAGES

Chinese: Native; **English:** Fluent; **Russian:** Conversant; **Japanese:** Beginning; **Spanish:** Beginning

CERTIFICATIONS

Emergency Medical Technician: Level 1 (EMT1)

Certified Scanning Electron Microscopy Operator | Certified X-ray Diffraction Operator

Teaching Certificate for Elementary School | HACCP Quality Control (Primary & Advanced)

Tour Guide of General Examination and Tour Leader of General Examination

TBSA Certificate of Business Planning Proficiency (Elementary)

National Volleyball Referee (C) | Certified lifeguard and Certified Swimming Coach (Level B & C)

TECHNICAL SKILLS

Computer Science: Python, Matlab, R, C#, JavaScript, jQuery, jQueryUI, Android Development, HTML, MySQL, Nodejs, AngularJS, MongoDB, Elasticsearch, Spark, Facebook APIs and Twitter APIs

Geography: GIS (ArcGIS, QGIS, Super GIS), Spatial Statistics, Spatial Database, Complex Network Analysis, Gephi

Physics: Signal Processing (in time sequence and frequency) and Electromagnetic Analysis

Food Chemistry: Starch Science, Resistant Starch, Slowly Digestible Starch, *in vitro* Digestibility, SEM, XRD and HPSEC

Chemistry: Organometallic synthesis, NMR, IR, HPLC, ESI-MASS and pH meter

Design: Illustrator, Photoshop, Dreamwaver and Google SketchUp

Marketing: Google Analysis, Facebook Marketing and Google Trend

INTERESTS

Emergency Medicine, Chinese Medicine, Volleyball, Sport Science, Photography, Tourism, Web and Graphic Design

Invited Talks

May, 2026	Invited Speaker , Startup with Map Visualization	<i>National Taiwan Normal University</i>
May, 2026	Invited Speaker , Data Visualization with Python Programming	<i>National Taiwan University of Arts</i>
Apr, 2026	Invited Speaker , The Development, Migration, and Local Baseball Culture of Elite Taiwanese Indigenous Baseball Players	<i>University of Taipei</i>
Sep, 2025	Invited Speaker , Artificial Intelligence and Geographical Science: Challenges and Opportunities	<i>National Kaohsiung Normal University</i>
Sep, 2025	Invited Speaker , Demystifying the Poverty Factors in Taiwan: A Spatial Analysis Approach	<i>National Pingtung University of Science and Technology</i>
Sep, 2025	Invited Speaker , Concept and Development of GeoAI	<i>National Taipei Normal University</i>
Jul, 2025	Invited Speaker , GeoAI in Urban Studies	<i>Academia Sinica</i>
Mar, 2025	Invited Speaker , AI & Big Data Analysis in Healthcare	<i>Kaoshiung Medical University</i>
Dec, 2024	Invited Speaker , How Does Generative AI Change Our Life?	<i>TED Talk</i>
Oct, 2024	Invited Speaker , The Applications of Social Network Analysis in Geography	<i>National Chengchi University</i>
Oct, 2024	Invited Speaker , Machine Learning Algorithm	<i>National Taipei University of Education</i>
Sep, 2024	Invited Speaker , Fundamentals of Artificial Intelligence	<i>National Taipei University of Education</i>
Mar, 2024	Invited Speaker , Spatiotemporal Data Mining Applications and Challenges	<i>National Taipei Normal University</i>
Mar, 2024	Invited Speaker , The Applications of Transportation Data in Geography	<i>National YangMing ChiaoTung University</i>
Mar, 2024	Invited Speaker , Healthcare Big Data, Establishment, Analysis, Connection, Validation and Applications	<i>Kaoshiung Medical University</i>
Mar, 2024	Invited Speaker , Find Your Research Track	<i>Chinese Culture University</i>
Feb, 2024	Invited Speaker , Applying Spatiotemporal Data Mining Techniques for the Disease Prevention and Policy Planning of a Large-scale Pandemic	<i>Academia Sinica</i>

Nov, 2023	Invited Speaker , Applying Geographic Information System in Social Work - Social Resident and Spatial Analysis	Providence University
Oct, 2023	Invited Speaker , The COVID-19 Impacts on Spatiotemporal Public Transportation Patterns	National Taiwan Normal University
Sep, 2023	Invited Speaker , EMS/Resuscitation Study: Vital Signs and Signals	National Taiwan University Hospital
Sep, 2023	Invited Speaker , Timely exposure risk at airports app for air travelers –using the COVID-19 pandemic as an example	Chung Yuan Christian University
Sep, 2023	Invited Speaker , The COVID-19 Impacts on Spatiotemporal Public Transportation Patterns	National Science and Technology for Disaster Reduction
May, 2023	Invited Speaker , The Training Paths and Challenges of Interdisciplinary Data Scientists	National Taiwan Normal University
May, 2023	Invited Speaker , The Future Image of Interdisciplinary Research Capabilities	Chung Yuan Christian University
Nov, 2022	Invited Speaker , The Importance of Spatial Analysis in Epidemic Prevention Policy	Chinese Culture University
Oct, 2022	Invited Speaker , Trial & Error Building an Interdisciplinary Life - Beyond Your Limits	National Taipei University of Education
Nov, 2021	Invited Speaker , The Roles of Spatial Analysis during the COVID-19 Pandemic	Chinese Culture University
Jan, 2020	Invited Speaker , Characterizing Major Airline Alliances: A Network Analysis	Kyoto University
Feb, 2019	Keynote Speaker , 2019 Present Sociology under Big Data	Academia Sinica
Sep, 2014	Keynote Speaker , Define an Expectation for Your University Life	NTUE
Apr, 2014	Keynote Speaker , 2014 Disaster Prevention and Warning Application in APP Competition	TICC, Taipei

Honors & Awards

SUPERVISED STUDENTS

2025	The 3rd Prize , 2025 Dissertation Competition, Department of Geography, NTNU	Taipei, Taiwan
2025	The 3rd Prize , 2025 Taiwan International Science Fair (TISF)	Taipei, Taiwan
2024	Granted , Apply Machine Learning to Reinforce Gravitational Wave Detection, Physics Award at the Taipei First Girls' High School Science Fair	Taipei, Taiwan
2024	Honorable Mention Award , Apply Machine Learning to Reinforce Gravitational Wave Detection, Physics Award at the Taipei First Girls' High School Science Fair	Taipei, Taiwan

RESEARCH

2020	The Second Prize , 2020 Canada - Taiwan Bilateral Conference on Nutrition, Health, Benefit and Innovative Processing of Whole Grains and Pulses	Taichung, Taiwan
2019	The Third Prize , 2019 International Conference on Grain Industry Development and Annual Meeting of Taiwan Grain Industry Association (TGIA)	Taichung, Taiwan
2018	Young Scientist Award , 2nd CiC Students' Workshop: Driving Sustainable Development	Tsukuba, Japan
2014	The First Prize , The 15th Cross-Strait Symposium on Environmental Resources and Ecological Conservation	Zhangjiajie, China
2013	The Second Prize , The 14th Cross-Strait Symposium on Environmental Resources and Ecological Conservation	Kunming, China
2011	The First Prize , The 12th Cross-Strait Symposium on Environmental Resources and Ecological Conservation	Nanchang, China
2011	Selected (Highest) , Undergraduate Student Thesis Presentation in Class of 2012	NTUE, Taiwan

COMPETITION

2014	Third Prize , 2014 Disaster Prevention and Warning Application in APP Competition	Taipei, Taiwan
------	--	----------------

SCHOLARSHIP AND GRANTS

2025-2028	Granted , Newly Appointed Distinguished Talent Grant, National Taiwan Normal University	Taipei, Taiwan
2020	NetSci-X 2020 Travel Grants , NetSci-X 2020, Waseda University	Japan
2020	College of Science Travel Grants for International Conference , College of Science, NTU	Taiwan
2020	Honorary Membership , The Phi Tau Phi Scholastic Honor Society of the Republic of China	Taipei, Taiwan
2020	Academic Excellence Award , Department of Food Science, Nutrition, and Nutraceutical Biotechnology, USC	Taipei, Taiwan
2019-2020	Grant for Ph.D. Candidates in the Humanities and Social Sciences to Write Doctoral Thesis , Ministry of Science and Technology	Taiwan
2019	College of Science Travel Grants for International Conference , College of Science, NTU	Taiwan
2018-2019	Presidential Award , Department of Food Science, Nutrition, and Nutraceutical Biotechnology, USC (Fall'18, Spring'19)	Taipei, Taiwan
2018	Travel Grants for 2018 Tsukuba Global Science Week , NTU and Tsukuba University	Taiwan
